

**ADMINISTRATIVE-INTERNAL USE ONLY**

IEG - 278/74

18 December 1974

MEMORANDUM FOR: Director, Imagery Analysis Service, DDI

SUBJECT : Light Table Exchange

1. Members of our respective staffs have been discussing an agreement to exchange new Richards 2X9 light tables for  AIL 1540 light tables in your inventory. I am interested in this trade and believe it to be of mutual benefit to both of us.

2. The Richards ELT 2X9 MIM Split Stage light tables will be configured exactly as those recently purchased from the Richards Corporation by IAS. These tables will be constructed at IEG's expense, ordered in FY 75, and delivered to IAS when completed.

3. The AIL 1540 light tables in question, presently in your inventory, are standard Model 1540 tables. These tables are to be delivered to IEG in a complete configuration and will include rights to the recently developed anti-vibration beams which are on order for all AIL 1540 tables

4. It is understood that the AIL 1540 light tables will be delivered to IEG upon receipt of the Richards 2X9 light tables on a one-for-one basis.

5. I would like your confirmation on this agreement.

Chief, Imagery Exploitation Group
